

DÉCORTECH FIRESAFE MDF

Décortech Firesafe MDF has been tested to ASNZ 1530 part 3 and achieved a SFI-0, SDI-5 fire rating. It is an excellent substrate that can be combined with either a real timber veneer to add natural warmth and elegance to any space or with Décortech factory applied UV satin paint finish for a high quality finish that can be matched to suit any interior.

Décortech Firesafe MDF allows timber panels to be used in spaces that they previously could not be due to fire requirements and provides a cost effective fire rated solution. It is ideal to use when the aesthetic qualities of wood or a high quality paint finish are desired with the safety of a fire retardant solution. Suitable applications include wall and ceiling linings and acoustic panels especially for schools, hospitals, commercial and public buildings, display panels and partition screens.

Décortech Firesafe MDF is environmentally friendly and produced under an environmental management system that is certified to ISO-14001. Wood veneers are sourced from sustainable and renewable forests and EC, FSC and COC veneers can be provided on request.

Available in a full range of stylish acoustic perforations both standard and fully customised, Décortech panels can be used to create perfect acoustic performance. Our panels come prefinished which prevents the need for additional onsite trades after installation reducing potential onsite issues such as spills, overspray or damage.

Contact us for a copy of our fire certificates which can be provided for all Firesafe MDF options.

Décortech Firesafe MDF is available in a range of stylish finishes and perforations.

Why Wood?

Décortech specialises in decorative, acoustic and fire retardant timber panels utilising the many benefits of wood, including its renewability, sustainability, energy efficiency, and natural elegance. Timber veneer when added to Décortech Firesafe MDF brings a modern and warm look to any space and is enhanced by our Décortech factory applied satin finish for a fresh, clean, premium result every time.
