

DECORTECH RADIATA PINE

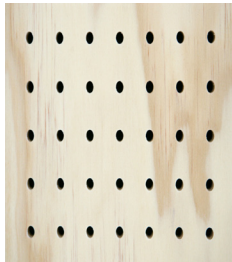

Radiata Plywood is generally a light coloured plywood with a prominent grain. Finished with Décortech factory applied clear satin finish, Décortech Radiata Plywood has a hard wearing, scratch resistant satin finish to give a clear natural look..

Décortech Radiata Pine is environmentally friendly and is only sourced from sustainably managed FSC Certified forests. SD Radiata has been tested by the EWPPA (Engineered Wood Products Association of Australasia) Brisbane laboratory and formaldehyde levels have been classified at super E0 - between 0.00 and 0.03 ppm which gives an acceptable rating for green buildings.

Décortech Radiata Pine is carefully selected for a high quality decorative finish and is ideally suited to high end architectural applications. AC grade is suited to ceiling and wall panels.

Available in a full range of stylish acoustic perforations both standard and fully customised, Décortech Radiata Pine Plywood can add natural warmth and elegance to any space.

Why Wood?

Décortech specialises in decorative, acoustic and fire retardant timber panels utilising the many benefits of wood, including its renewability, sustainability, energy efficiency, and natural elegance. Timber brings a modern and warm look to any space and our Décortech Radiata Pine is enhanced by our Décortech factory applied finishes range for a premium result every time.
